

Document Hierarchy — Quick Reference

Hybrid Homelab Project (IHPC). Each document owns one fact. Point, don't copy.

How to read this map

- Solid box = document exists today. Dashed box = planned, not yet built.
- Higher = broader authority. A document never repeats a fact owned by another; it references it.
- All governance and project documents follow the 8-part skeleton defined in the Documentation Standard.
- The 8 parts: Title, Overview, Scope, Dependencies, Deliverables, Detailed Content, Acceptance Criteria, References.
